Senior Medical Writer | Director, Medical Writing

Summary

Medical Writer and clinical development professional with 25+ years of experience in medical writing, oncology clinical trials (Phase 0–IV), and pharmaceutical research. Skilled in preparing various oncology clinical study documents in compliance with FDA, ICH, EMA, and GxP guidelines. Proven leader in medical writing, clinical trial documentation, electronic documentation management systems (EDMS), and cross-functional collaboration across Medical Affairs, Clinical Development, Business Development, Data Management, and Quality Affairs/Regulatory Compliance.

Skills

- Oncology Medical Writing for Clinical Trials
- Knowledge of FDA, ICH and EMA Oncology-related Guidelines
- Pharmaceutical Research and Drug Development
- Oncology Response Criteria (e.g., RECIST, Cheson, PCWG, etc.)
- Scientific Publications, Poster Presentations, Abstracts, Patents
- Cross-Functional Team Collaboration
- Electronic Document Management Systems (EDMS)
- SOPs, Work Instructions, and On-the-Job Training (OJT) Documentation
- Quality Control/Clinical Document Review and Editing
- Medical Writing Leadership and Team Training

Experience

03/2020 - 07/2021

Bioclinica (Now Clario)
Princeton NJ

Director, Medical Writing/Medical Communications

Led medical writing operations, clinical documentation strategy, and cross-functional collaboration to deliver high-quality clinical trial documents.

- **Medical Writing Leadership:** Managed eleven (11) supervisors and Medical Writers (MWs). Developed an MW training program for onboarding and on-going OJT, oversaw document management and workflows, managed document template creation and revisions, created an Access database to track documents and studies, and oversaw MW document development, team performance, and timely delivery of deliverables.
- **Independent Contributor/Document Development:** maintained a full-time MW's workload from study start-up/Sponsor Kick-off Meetings through database lock. Prepared Independent Review Charters, Site Imaging Manuals, Clinical Data Transfer Plans, Physician Training Packages, and Compliance Reports. Utilized various response criteria (e.g., RECIST, Cheson/Lugano, Hallek, Owen, PCWG2/3, irRC, iRECIST, RANO, etc.).
- **Document Review and Collaboration:** Reviewed and provided quality oversight for MW-prepared deliverables to ensure alignment with internal standards and FDA/ICH Guidelines. Supported document development activities in collaboration with Sponsors, Medical Affairs, Clinical Development, and Data Management by overseeing document timelines, scheduling internal and external document adjudication meetings, and providing escalation support.
- **Operational Excellence and Team Development:** Provided training, mentorship and oversight to MWs; tracked department KPIs, document metrics, workloads; and supported process improvements across various departments.
- **Quality and Compliance Support:** Partnered with Quality Assurance and Regulatory Compliance teams to support audits, audit responses, and documentation practices aligned with internal standards and FDA guidelines.

01/2013 - 03/2020

BioClinica, Inc.
Princeton, NJ

Senior Manager, Medical Communications

See previous position for details on similar tasks below.

- **Medical Communications Leadership**
- **Independent Contributor**
- **Document Review and Collaboration**

- **Document Management and Workflow Optimization:** Implemented a weekly document tracking calendar to improve visibility and accountability for medical writing activities, align stakeholders, and support study timelines.
- **Performance Reporting and Operational Metrics:** Prepared monthly operational reports for department key performance indicators (KPIs)/metrics and document billables, as well as MW workload analyses (e.g., overtime, workload, etc.) to support department performance and resource planning. Ad hoc reports to Finance, Business Development and Medical Affairs were prepared as requested.
- **Training and Team Development:** Trained, mentored, and supported medical writers through onboarding programs, promotion readiness, new response criteria reviews, and implementation of document life cycle process improvements.

10/2010 - 01/2013

CoreLab Partners
Princeton, NJ

Senior Manager, Medical Communications

See previous position for details on similar tasks below.

- **Medical Writing Leadership**
- **Independent Contributor/Document Development**
- **Document Review and Collaboration**
- **Training and Team Development**
- **Standards and Process Governance:** Chaired the Charter Standards Committee, leading cross-functional efforts to maintain standardized documentation practices, language, and processes consistent with internal SOPs, and FDA/ICH guidelines for all Medical Writing-developed documents.
- **Industry Collaboration:** Participated in Pharmaceutical Imaging Group discussions with Independent Review Facilities, Sponsors, and FDA stakeholders.
- **Quality Assurance and Regulatory Compliance Support:** supported QA/RC during FDA audits by acting as scribes and participating in audit preparation activities. Prepared Compliance Reports (e.g., Notes to File, Deviation Reports, CAPAs, etc.) to document changes to clinical trial processes and documents as requested by Sponsors and/or internal stakeholders.
- **Scientific Publication Support:** Reviewed, edited and contributed to Medical Affairs scientific content (e.g., abstracts, journal articles, poster presentations, etc.).

07/2008 - 10/2010

RadPharm Inc. and
CoreLab Partners
Princeton, NJ

Manager, Medical Communications

See previous position for details on similar tasks below.

- **Medical Communications Management**
- **Independent Contributor/Document Development**
- **Document Review and Collaboration**
- **Training and Team Development**
- **Template Development and Standardization:** Created and maintained Sponsor-specific and criteria-specific document templates while ensuring consistency with internal standards, response criteria, and FDA and ICH guidelines.
- **Project Team Training and Knowledge Development:** Developed Clinical Project Management-specific training modules. Supervised and trained Project Managers on reviewing Protocols and clinical trial documents to improve MW and Project Team relations and collaboration.
- **Internal Process Improvements:** Managed department database and web resources, developed additional document training platforms, and supported operational improvements across various internal departments.

01/2008 - 07/2008

RadPharm. Inc.
Princeton, NJ

Senior Medical Writer, Medical Communications

See previous position for details on similar tasks below.

- **Medical Writing Leadership:** Managed three (3) MWs while overseeing document development, ad hoc Charter/Manual reviews, and successful delivery of document deliverables.
- **Independent Contributor/Document Development**
- **Document Review and Collaboration**
- **Template Development and Standardization**
- **Medical Writer Training:** Created a structured 6-week training program to onboard new medical writers. Training focused on document creation, template usage, oncology imaging, introduction to basic oncology (e.g., solid tumors, lymphomas,

hematology), timeline management, escalations, and clinical trial life cycle. Developed document naming and versioning systems, criteria modules, daily work modules, and other documents to help MWs navigate their work day.

08/2006 - 12/2007

RadPharm, Inc.
Princeton, NJ

Medical Writer, Medical Affairs

- **Oncology Medical Writing and Clinical Documentation:** Authored Independent Review Charters for oncology clinical studies, ensuring accurate documentation aligned with study protocols, imaging requirements, and regulatory expectations.
- **Process Improvement and Document Standardization:** Enhanced Charter development processes by improving document quality, standardizing language, and reducing turnaround times through optimized workflows and templates.
- **Regulatory and Industry Collaboration:** Participated in DIA-sponsored FDA/Medical Imaging Group meetings and contributed to the development of standardized medical imaging templates to support Charter harmonization across imaging core laboratories.
- **Database Development and Information Management:** Developed and maintained a Microsoft Access database to track awarded studies, MW statistics, document deliverables, and other clinical-trial related information. Developed internal web pages for all published Charters, Manuals, and other MW-prepared documents for access by internal personnel.
- **Scientific Publication Support:** Assisted in preparing and formatting journal article submissions to conform to JAMA, ICMJE, and AMA guidelines.

04/2004 - 03/2006

The College of New
Jersey
Ewing, NJ

Graduate Assistant, English Department

- **Research and Academic Support:** Conducted literature searches for comprehensive exams, supported faculty research projects, proctored examinations, and assisted with preparation of academic materials for various English Department Symposia.
- **Editorial and Publication Support:** Proofread, edited, and citation-checked manuscripts while ensuring accuracy and compliance with MLA, Chicago, and APA style guides.
- **Documentation Review and Editing:** Modified EndNote libraries for various faculty projects. Created user guides and technology manuals for EndNote and WordPerfect.

11/2004 - 08/2005

The College of New
Jersey
Ewing, NJ

Research Assistant, The Writing Program

- **Program Evaluation and Research Support:** Assisted in writing assessment program evaluations for Freshman Writing Programs.
- **Data Analysis and Reporting:** Developed spreadsheets and databases using Microsoft Excel and Access to organize Freshman Writing program data.
- **Academic Operations Support:** Managed resource coordination, including textbook ordering and administrative support.

04/2004 - 09/2004

R.J. Staffing
Nanuet, NY

Scientist/Document Control Consultant – Barr Labs (Now Teva Pharmaceuticals)

- **Scientific Documentation:** Authored development reports, research protocols, and IQ/OQ protocols supporting drug delivery device development and clinical manufacturing activities.
- **Quality Systems and Document Control:** Reviewed SOPs, test methods, specifications, master formulas, and batch records while ensuring documentation accuracy and compliance with quality standards.
- **R&D Process Support and Training:** Provided guidance, technical assistance and historical knowledge on formulation development/clinical manufacturing/optimization processes. Trained QA personnel on R&D document control systems and databases.
- **Project Reporting and Knowledge Management:** Prepared comprehensive project progress report documenting historical formulation development activities to include development milestones and clinical manufacturing processes.

06/2002 - 04/2004

Barr Research, Inc.
(Division of Barr
Laboratories)
Plainsboro, NJ

R&D Research Scientist/Document Controller

- **Clinical Development and Research Support:** Developed and prepared preclinical, Phase I, and Phase I/II clinical supplies for controlled-release drug delivery devices. Developed an Access database for R&D chemical stock. Handled inventory, control and dispensing of restricted materials and drugs.
- **Regulatory Documentation:** Prepared the Chemistry, Manufacturing and Controls (CMC) sections for pre-IND and IND submissions. Knowledgeable in cGMPs, cGLPs, and CFR 21.

		• SOP Development: Created and implemented an R&D-specific SOP and document control system, designed to accommodate a “cGMP-light” approach. • Document Management: Prepared SOPs, specifications, test methods, batch records, IQ/OQ protocols, and controlled documentation workflows. • Quality Assurance Collaboration: Served as a key liaison between R&D and QA/RA related to manufacturing and document control activities. Performed audits of contract labs and vendors prior to clinical manufacturing for Phase 0, Phase I and Phase I/II studies. • Scientific Communication and Training: Prepared technical reports, master formulas/batch records, feasibility proposals, validation and qualification protocols, journal articles, poster presentations, and patent draft applications.
12/2001 - 06/2002	Enhance Pharmaceuticals Plainsboro, NJ	Senior Research Scientist: Formulations and Clinical Research See previous position for details on similar tasks below. • Formulation Development: Led feasibility and pre-formulation development activities resulting in the preparation of preclinical and Phase I clinical supplies for transvaginal rings and controlled-release drug delivery devices. • Scientific Publication Support: Prepared patent draft applications, journal articles and poster presentations. • Regulatory Documentation • SOP Development • Document Management • Preclinical Studies Oversight: Oversaw preclinical animal studies and ensured practices were cGLP-compliant. • Quality Assurance Collaboration • Process Training and Technical Leadership: Trained research scientists and technicians on SOPs, laboratory practices, and documentation standards while serving as a qualified trainer for laboratory notebook formatting and review.
1/2001 - 11/2001	Enhance Pharmaceuticals Plainsboro, NJ	Research Scientist: Formulations and Clinical Research See previous position for details on similar tasks below. • Formulation Development • R&D Lab Oversight: Developed Microsoft Access database for lab inventory and R&D purchasing. Designed the R&D lab, purchased relevant equipment (i.e., UVs, HPLCs, dissolution baths) and supplies. Trained and supervised technicians, lab assistants and summer interns. • Scientific Publication Support • Regulatory Documentation • SOP Development • Document Management • Preclinical Studies Oversight
12/1999 - 01/2001	Enhance Pharmaceuticals Plainsboro, NJ	Research Scientist, Process Development and Engineering See previous position for details on similar tasks below. • Process Development and Scale-Up: Led qualification and optimization of manufacturing processes for the scale-up of transvaginal, intrauterine, and implantable drug delivery devices. • Process Development Documentation: Authored, reviewed, and approved validation and qualification (e.g., IQ/OQ/PQ) protocols and reports; manufacturing, equipment and process SOPs; device specifications; and test methods. • Scientific Publication Support • SOP Development • Team Supervision and Technical Guidance: Managed research engineers and laboratory technicians, providing technical direction and operational support. • Controlled Manufacturing Expertise: Applied knowledge of cleanroom operations, process validation, and development activities to support clinical supply production.
09/1999 - 12/1999		Interim Group Leader: Research and Process Engineering See previous position for details on similar tasks below.

FEI Technologies / Drug Delivery Services Plainsboro, NJ	• Research Team Leadership: Managed laboratory assistants, technicians, and engineers during departmental integration while maintaining scientific responsibilities. • Operational Support and Process Management: Provided leadership support to Process Development teams focused on continued development of drug delivery technologies. • Clinical Development Support: Continued formulation research, clinical manufacturing activities, and optimization of transvaginal, intrauterine, and controlled-release drug delivery systems. • Cross-Functional Coordination: Facilitated collaboration between research, formulation, and process development teams to maintain project timelines. • Technical Oversight: Provided guidance on laboratory activities, documentation practices, and development processes.
02/1999 - 09/1999 FEI Technologies / Drug Delivery Services Plainsboro, NJ	Research Scientist, Formulations Research and Development See previous position for details on similar tasks below. • Formulation and Clinical Manufacturing: Led feasibility and pre-formulation studies, formulation development, and clinical manufacturing for transvaginal, intrauterine, and implantable drug delivery devices. • Regulatory Documentation • SOP Development • Scientific Publication Support • Process Optimization and Technology Transfer: Supported scale-up, process optimization, and transfer of manufacturing processes into clinical production environments. • R&D Lab Oversight
12/1997 - 02/1999 FEI Technologies / Drug Delivery Services Plainsboro, NJ	Assistant Research Scientist, Formulations Research and Development See previous position for details on similar tasks below. • Formulation Research Development: Developed feasibility and pre-formulation studies in support of formulation/pre-clinical and clinical manufacturing activities for controlled-release drug delivery devices. • R&D Lab Oversight • Scientific Publication Support
08/1993 - 11/1997 Whitehall-Robins Healthcare Hammonton, NJ	Assistant Scientist: Liquids and Semi-Solids Department • Pharmaceutical Product Development: Responsible for research, formulation, and product development activities for liquid and semi-solid drug products for consumer healthcare portfolios. • Technical Writing: Prepared technical documentation and method development reports while ensuring alignment with internal SOPs and cGMP requirements. • Quality and Compliance Expertise: Applied knowledge of cGMP guidelines, Design of Experiments (DOE), and pharmaceutical development practices to support product development and manufacturing.

Education

The College of New Jersey – Ewing, NJ
Master of Arts (MA), English | May 2006
GPA: 4.0

The College of New Jersey – Ewing, NJ
Bachelor of Science (BS), Chemistry | May 1993
Chemistry GPA: 3.47

MANAGEMENT EXPERIENCE

- Managed a team of 11 direct reports across supervisory and individual contributor roles.
- Trained, mentored, and developed staff through onboarding, continuous learning programs, and an open-door leadership approach.
- Led by example by demonstrating initiative, flexibility, reliability, and strong collaboration across tasks and projects.

- Conducted bi-annual performance evaluations, peer reviews, and oversight of workload and time management.
- Collaborated with cross-functional teams including Clinical Project Management, Medical Affairs, Data Management, Quality Assurance, Regulatory Compliance, Finance, and Business Development.
- Supported departmental budgeting, resource planning, and workforce allocation decisions.
- Generated department metrics and reports, including KPIs, billables, document volumes, study workload, overtime, and RFP data analysis.
- Designed and maintained Medical Writer training programs, including onboarding and ongoing professional development initiatives.

TECHNICAL PROFICIENCIES

- Microsoft Office Suite (Word – Expert; Excel – Advanced; PowerPoint – Advanced; Outlook – Expert; Access – Intermediate; Teams – Advanced; Visio – Intermediate; Project – Beginner; SharePoint – Intermediate)
- Advanced Microsoft Word formatting, templates, macros, document protection, styles, and complex document preparation
- Advanced Excel functions including formulas, pivot tables, data analysis, charts, and reporting
- Electronic Document Management Systems (EDMS): Documentum, MasterControl
- Regulatory and Publication Style Guides: AMA, APA, Chicago, MLA, ACS
- Adobe Acrobat Pro, EndNote
- Operating Systems: Windows, macOS
- Web Browsers: Chrome, Firefox, Edge, Safari

PUBLICATIONS

- Roche, F. “The Battle of the Books: An Attack on Nationalism.” *Medieval Forum*, Vol. VI, January 2007.
- Roche, F. “Gwrthryfel: Welsh Rebellion in 1 Henry IV and in British History.” *The College of New Jersey Journal of Student Scholarship*, Vol. VIII, April 2006, pp. 3–17.
- Schröder A., Levin R.M., Kogan B.A., Das A.K., Kay F., Mahashabde A. “Absorption of Oxybutynin from Vaginal Inserts: Drug Blood Levels and the Response of the Rabbit Bladder.” *Urology*, December 2000; 56(6): 1063–1067.

POSTER PRESENTATIONS

- “Single Dose Pharmacokinetic Comparison of a Novel Formulation of Fluoxetine and Norfluoxetine Following Oral and Vaginal Administration.” Controlled Release Society, San Diego, CA, July 2003.
- “A Single Dose Pharmacokinetic Comparison of a Novel Formulation of Fluoxetine and Norfluoxetine Following Oral and Vaginal Administration.” American Association of Pharmaceutical Scientists, Toronto, Canada, November 2002.
- “Development of a Vaginal Anesthetic Ring Delivery System.” 6th US–Japan Symposium on Drug Delivery Systems, Maui, HI, December 2001.
- “Development of a Vaginal Anesthetic Ring Delivery System.” American Association of Pharmaceutical Scientists, Indianapolis, IN, November 2000.

- “Preformulation Studies on the Development of Oxybutynin Vaginal Ring Devices.” American Association of Pharmaceutical Scientists, San Francisco, CA, November 1998.
- “Synthesis of Platinum Levamisole Complexes and Their Inhibition of Alkaline Phosphatase.” American Chemical Society, Lawrenceville, NJ, November 1992.

ORAL PRESENTATIONS

- “Pharmaceutical Drug Development: Document Types Used Through the Various Stages of Development.” CoreLab Partners, Inc., Princeton, NJ, November 2009.
- “Synthesis of Platinum Levamisole Complexes and Their Inhibition of Alkaline Phosphatase.” American Chemical Society Local Chapter Meeting, Rider University, Lawrenceville, NJ, December 1992.

PATENTS

- Device and Method for Treating Urinary Incontinence in Females. European Patent No. 2106785, September 2009. Duramed Pharmaceuticals, Inc.
Inventors: Mahashabde A., Kay M.F., Koelmel D.
- Method of Systemically Delivering SSRIs. U.S. Patent No. 7,005,138, February 2006. Duramed Pharmaceuticals, Inc.
Inventors: Mahashabde A., Kay M.F., Glazer B., Zhang J.
- Device and Method for Treating Urinary Incontinence in Females. U.S. Patent No. 6,436,428, August 2002. Enhance Pharmaceuticals, Inc.
Inventors: Mahashabde A., Kay M.F., Koelmel D.
- Oral Analgesic Compositions. U.S. Patent No. 6,344,480, February 2002. American Home Products Corporation.
Inventors: Kay M.F., Ratnaraj T., Sandler P.
- Apparatus and Method for Anesthetizing the Cervical Region of a Female. U.S. Patent No. 6,264,973, July 2001. FEI Enterprises, Inc.
Inventors: Mahashabde A., Kay M.F., Mestichelli L., Gooding A., Ruth S.
- Device and Method for Treating Urinary Incontinence in Females. International Patent WO/2001/070154 (PCT), March 2001. Enhance Pharmaceuticals, Inc.
Inventors: Mahashabde A., Kay M.F., Koelmel D.

PROFESSIONAL TRAINING/PROJECTS

- Developed and delivered project team training sessions on protocols, study start-up documents, read-ready documents, physician training, compliance reports, and medical communications.
- Designed and facilitated training programs for site manuals, independent review charters, study-related documents, and FDA submission document conventions (including global standards and glossaries).
- Supported clinical operations training programs covering medical communications, charters, and study documentation processes.
- Developed the RadPharm/CoreLab Partners/Bioclinica Medical Writer Training Plan to standardize onboarding and development processes.
- Served as scribe for FDA and regulatory meetings, including Pre-IND/EOP1 meetings, ODAC meetings, FDA audits, and DIA-sponsored industry meetings.
- Documented regulatory and compliance meetings for pharmaceutical and medical imaging groups to ensure accurate reporting and submission readiness.
- Contributed to development of internal databases for medical communications and laboratory/chemical tracking systems.

PAST AND PRESENT PROFESSIONAL AFFILIATIONS

- Drug Information Association (DIA)
- American Medical Writers Association (AMWA)
- Controlled Release Society (CRS)
- American Association of Pharmaceutical Scientists (AAPS)
- American Chemical Society (ACS)
- Modern Language Association (MLA)

HONORS

- Enhance Pharmaceuticals – Outstanding Efforts, July 2001
- Who's Who in America, January 2001
- Enhance Pharmaceuticals – Initiative Award, July 2000
- American Chemical Society – Certificate of Recognition, December 1999
- Enhance Pharmaceuticals – Outstanding Efforts, December 1999
- International Who's Who for Professionals, 1997
- Professional Who's Who, 1994

DEVELOPMENT AND TRAINING

- Annual training in Good Clinical Practices (GCP), ICH Guidelines, 21 CFR Part 11, Good Documentation Practices (GDP), Legal and Corporate Ethics, and HIPAA compliance (Bioclinica, Princeton, NJ).
- Annual training in computer and network security, phishing awareness, and corporate compliance programs (Bioclinica, Princeton, NJ).
- Certified training in MasterControl systems and Documentum (v6.6 and GxPharma applications).

- Clinical Study Report (CSR) Writing training, DIA Webinar series (2013).
- Management and leadership training including interviewing skills, management skills for new managers, and business etiquette (RadPharm, CoreLab Partners).
- Regulatory and industry systems training including HIPAA, GMP/cGMP, and FDA-related compliance standards.
- Technical and pharmaceutical training in film coating technology, tablet technology, emulsion and suspension systems, and pharmaceutical formulation design.
- Training in Design of Experiments (DOE) through SAS Institute and consulting programs.
- Technical writing training (The Writing Center, Inc.).
- Pharmaceutical regulatory and industry education through PhRMA lecture series and Center for Professional Advancement programs.
